

Winterization, Shrink-Wrapping, and Storage 2023

Protect your investment, avoid costly repairs, and stretch the life of your boat! Climate-controlled indoor boat storage is out of reach for most boat owners, but you don't have to leave your boat unprotected out in the elements.

You can keep New England's winter weather (and critters!) from causing damage to your boat with our shrink-wrapping services for most boat styles and sizes, including personal watercraft. We use durable 2x4 internal frames and strong 7mm thick white wrapping material to wrap, as well as ethanol-free fuel in our winterization process.

Shrink-Wrap Fees	
Wrap (Includes 2 Vents and 2 Moisture Bags)	\$18.00/foot
Re-Usable Doors	\$25.00/each
<i>Customer is responsible for maintaining frame; washes are available prior to application of wrap.</i>	
Bottom Wash: \$250.00	

All customers must maintain insurance while their boat or any other unit is on the premises and must hold harmless Granite State Dock & Marine. We ask that all personal items be removed from the boat and that covers are installed prior to service. We are not responsible for lost or missing items, nor for damage caused by acts of God.

Winterization Fees (Includes Materials and Labor)	
All Inboard/Outboard (IO)	\$325.00
Outboard – 90HP & Above	\$250.00
Outboard – Below 90HP	\$200.00

Winterization includes: Fogging of engine with storage seal, fuel system treatment with conditioner, draining (block, elbows, coolers, and manifolds), grease swivel, corrosion guard, battery disconnection, and gear lube change. Please Note: *winterization of water systems is*

additional time and antifreeze. Customers may add an oil change to winterization for an additional fee of 1 hour of service plus the cost of supplies.

Winter Storage is billed at \$20/foot for the winter season. All customers must maintain their own insurance for boats or any other unit while they are left on the premises and must sign an agreement to hold harmless Granite State Dock & Marine. You must sign a release of liability waiver for any vessel or unit that is being stored on the premises.

Pick-up and delivery for service and storage customers are available. For local customers (within 30 miles) additional charge is \$150.00. Customers outside our local pick-up zone will incur a charge of \$300.00.
